This section analyzes your **actual organic traffic data directly from Google**. While we review short-term health Month-over-Month (MoM), we also include overall Year-over-Year (YoY) comparisons here. This long-term view is essential for measuring true SEO progress and business growth, filtering out seasonal fluctuations.

Note: Unlike the previous section, which tracked a specific list of keywords, this data captures **every** search query that leads a user to your site, and reports at a **national level**.
