Hi Dr. Yanez,

Here is your performance report for the previous month. Please let us know if you have any questions or suggestions. Happy to schedule a call to review the report if needed.

Data will indicate if it is comparing to the prior month (MoM) or same month in the previous year (YoY). If you want a specific comparison changed in future reports, or have more specific questions, let us know!

Sincerely,
Shawn Moore

Important Information

As a result of the conversion tracking overhaul, note that historical comparisons of key events before February 2026 will not be accurate. January 2026 key event data may appear incomplete, as the process was completed mid-month (this will explain any discrepancies in event count vs key event count for the same event). This change facilitated significantly improved reporting on actions related to specific school.

Recommended Actions For You

1. **What is the status of online ND Degrees?** Your Can I Take an Online Doctor of Naturopathic Medicine Degree? page has seen decreases YoY, and largely references programs going online as a result of COVID-19. This page should be updated to reflect the current options and situation. We can slot it in as part of the roadmap revisions.

2. **Share any info breakdown by State/Province (or major cities)** to help create/support localized content. Similarly, any city specific information/events/speakers/etc will help.

b. One example is **state-specific prerequisite guides or licensing/practice limitations/specifics**.

b. Another is a "find your school" or "which school is right for me" interactive map or quiz to guide prospective students to the most relevant program page, aiming to increase engagement and enrolment inquiries. The tool should include filters or questions about location, preferred learning format, start date, program focus, and campus environment to personalize results and support informed next steps. This would require comparing the schools and having more in-depth information on them and their requirements, localized info,

differences in programs, etc. So please let us know if you want us to spend time building this out, and share which information is safe to compare (if any) between schools.

5. **Share updated loan forgiveness information as it comes in** (we'll avoid mentioning until notified otherwise, due to concerns about potential removal under Trump).

6. **Continue sending us content you publish for SEO review**.

7. **Work on getting 5-star reviews for your Google Business Profle.** Since your profile has none, even 5-10 would help lend it some credibility and help with entity building for SEO. Here is a direct review request link you could share with member school admissions officers, or a few key students/graduates, etc.

Summary

- **Total Website Traffic:** The site reached 36.82K total users in March, up 20.9% MoM and 1.3% YoY.
- **Organic Performance (GSC):** Clicks up 13% MoM to 27.33K. Impressions up a remarkable 404.8% YoY, reaching 12.41M.
- **Search Query Trends:** "Fenugreek benefits" led with 147 clicks (up 206.3%). Core program queries held steady — "how to become a naturopathic doctor" up 9.3% and "naturopathic doctor school" up 8.3% MoM.
- **Educational Content Success:** The natural acne treatments page surged (sessions up 112.6%), and the sound therapy page saw a 1,600% MoM spike — both likely newly indexed or promoted content.
- **AI Overview (AIO) Footprint:** AANMC is linked from 102 AIO keywords in the USA and 107 in Canada. claude.ai referrals grew 700% MoM, reflecting broader AI-driven discovery of AANMC content.
- **Member School Impact:** Total affiliate event count reached 2,103 (up 5.1% MoM), with 1,740 total users engaged. CCNM Toronto and Boucher were the strongest performers with key events up 6.3% and 8.6% respectively. Bastyr San Diego had the biggest growth (key events up 33.3%). NUHS, NUNM, UWS, and Bastyr Seattle all saw key event declines, with UWS and Bastyr Seattle down the most. Tuition fees and prerequisite/degree requirements were the most-clicked content types across schools, suggesting users are in active comparison mode.

Industry Info

March 24–25: Google Spam Update — A fast-moving spam update targeting manipulative practices across all languages. Wrapped in under 24 hours. Low risk for AANMC given content quality. Source: Search Engine Land

March 27: Google March 2026 Core Update — Google's first broad core update of 2026, still rolling out through mid-April. Strongest signals favour original experience-driven content and tighter E-E-A-T. AI-generated content without human oversight and thin pages are the biggest losers. Source: Search Engine Land

Q1 2026: GEO Is No Longer Optional — Google AI Overviews now appear in over 25% of all searches (up from 13% in March 2025), and AI referral traffic industry-wide is up 527% YoY. Brands winning citations are publishing tightly clustered, data-rich content — not chasing individual keywords. AANMC's strong AIO footprint is a real asset here, but content gaps around school comparisons and localized info are increasingly costly. Source: GEO 2026 State Report

Keyword Rankings Report

This section tracks performance Month-over-Month (MoM). Because search engine algorithms and rankings are highly volatile, this short-term view allows us to identify and react to immediate landscape changes quickly.

Note: These rankings reflect data for your specific tracked keywords. Broader ranking data is available in the *Google Search Console* section below.

Keyword Ranking - USA

Position Tracking: Overview

aanmc.org | Desktop, United States (Google) | Organic | Mar 01 – 31, 2026

Visibility

68.63% −2.46%

This metric is based on CTR and shows a domain's progress in the Google top 100. The more visibility you have, the better. A 100-percent visibility would mean that the domain being tracked is ranking in the first position for all keywords in your campaign.

Estimated Traffic

2,848.9 +860.56

The estimated amount of traffic your domain is receiving while ranking for the keywords in your current campaign. It is calculated by multiplying the average CTR for each position your domain has by its keyword volume.

Average Position

5.55 ↓ 0.85

The average ranking of all keywords in your current campaign.

Google Search Console

This section analyzes your **actual organic traffic data directly from Google**. While we review short-term health Month-over-Month (MoM), we also include overall Year-over-Year (YoY) comparisons here. This long-term view is essential for measuring true SEO progress and business growth, filtering out seasonal fluctuations.

Note: Unlike the previous section, which tracked a specific list of keywords, this data captures **every** search query that leads a user to your site, and reports at a **national level**.

Clicks (MoM)	Impressions (MoM)	CTR (MoM)	Avg Rank (MoM)
27.33K ↑13%	12.41M ↑0.8%	0.2% ↑12.1%	6.21 ↓4.9%

Clicks (YoY)	Impressions (YoY)	CTR (YoY)	Avg Rank (YoY)
27.33K ↓0.5%	12.41M ↑404.8%	0.2% ↓80.3%	6.21 ↓47.4%
