Hi Dr. Yanez,

Here is your performance report for the previous month. Please let us know if you have any questions or suggestions. Happy to schedule a call to review the report if needed.

Data will indicate if it is comparing to the prior month (MoM) or same month in the previous year (YoY). If you want a specific comparison changed in future reports, or have more specific questions, let us know!

Sincerely,
Shawn Moore

Recommended Actions For You

1. **What is the status of online ND Degrees?** Your Can I Take an Online Doctor of Naturopathic Medicine Degree? page has seen decreases YoY, and largely references programs going online as a result of COVID-19. This page should be updated to reflect the current options and situation. We can slot it in as part of the roadmap revisions.

2. **Share any info breakdown by State/Province (or major cities)** to help create/support localized content. Similarly, any city specific information/events/speakers/etc will help.

b. One example is **state-specific prerequisite guides or licensing/practice limitations/specifics**.

b. Another is a "find your school" or "which school is right for me" interactive map or quiz to guide prospective students to the most relevant program page, aiming to increase engagement and enrolment inquiries. The tool should include filters or questions about location, preferred learning format, start date, program focus, and campus environment to personalize results and support informed next steps. This would require comparing the schools and having more in-depth information on them and their requirements, localized info, differences in programs, etc. So please let us know if you want us to spend time building this out, and share which information is safe to compare (if any) between schools.

5. **Share updated loan forgiveness information as it comes in** (we'll avoid mentioning until notified otherwise, due to concerns about potential removal under Trump).

6. **Continue sending us content you publish for SEO review**.

7. **Work on getting 5-star reviews for your Google Business Profle.** Since your profile has none, even 5-10 would help lend it some credibility and help with entity building for SEO.

Here is a direct review request link you could share with member school admissions officers, or a few key students/graduates, etc.

Keyword Rankings Report

This section tracks performance Month-over-Month (MoM). Because search engine algorithms and rankings are highly volatile, this short-term view allows us to identify and react to immediate landscape changes quickly.

Note: These rankings reflect data for your specific tracked keywords. Broader ranking data is available in the *Google Search Console* section below.

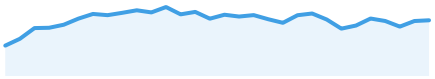

Keyword Ranking - USA

Position Tracking: Overview

aanmc.org | Desktop, United States (Google) | Organic | Jun 01 – 30, 2026

Visibility

67.50% +9.00%

This metric is based on CTR and shows a domain's progress in the Google top 100. The more visibility you have, the better. A 100-percent visibility would mean that the domain being tracked is ranking in the first position for all keywords in your campaign.

Estimated Traffic

2,604.3 +545.05

The estimated amount of traffic your domain is receiving while ranking for the keywords in your current campaign. It is calculated by multiplying the average CTR for each position your domain has by its keyword volume.

Average Position

4.28 ↑ 0.35

The average ranking of all keywords in your current campaign.

Keyword Ranking - Canada

Position Tracking: Overview

aanmc.org | Desktop, United States (Google) | Organic | Jun 01 – 30, 2026

Visibility

67.50% +9.00%

This metric is based on CTR and shows a domain's progress in the Google top 100. The more visibility you have, the better. A 100-percent visibility would mean that the domain being tracked is ranking in the first position for all keywords in your campaign.

Estimated Traffic

2,604.3 +545.05

The estimated amount of traffic your domain is receiving while ranking for the keywords in your current campaign. It is calculated by multiplying the average CTR for each position your domain has by its keyword volume.

Average Position

4.28 ↑ 0.35

The average ranking of all keywords in your current campaign.

Google Search Console

This section analyzes your **actual organic traffic data directly from Google**. While we review short-term health Month-over-Month (MoM), we also include overall Year-over-Year (YoY) comparisons here. This long-term view is essential for measuring true SEO progress and business growth, filtering out seasonal fluctuations.

Note: Unlike the previous section, which tracked a specific list of keywords, this data captures **every** search query that leads a user to your site, and reports at a **national level**.
