Google Ads Overview 32

Hi Sherry & Jamie,

Thank you for choosing ThinkProfits as your digital marketing and AI growth partner. We're excited to work with you and help achieve your business goals. Enclosed is your monthly performance report.

Your insights and feedback—including what you believe is working, what isn't, and any ideas or recommendations you may have—are an important part of our ongoing optimization process. We actively use industry-leading marketing tools, analytics, and our team's expertise, alongside AI tools, to evaluate opportunities and prioritize the initiatives we believe will deliver the greatest return on your investment.

If you've been using AI tools such as ChatGPT, Gemini, Claude, or Perplexity and have received reports or recommendations, we welcome you to share them with us. Our team will review any suggestions through the context of your business objectives, current strategy, available budget, and the work already underway. While AI is excellent at generating ideas, our role is to provide the human validation and strategic prioritization needed to determine which recommendations are most likely to produce meaningful business results.

To ensure you're fully informed and comfortable with your campaign performance and our upcoming priorities, we'd like to schedule a review meeting at your earliest convenience. If there are one or two specific recommendations from an AI report—or any other source—that you'd like us to discuss, please let us know before the meeting so we can include them in our review.

Please book a time with our team using the link below:
https://calendar.app.google/rRvnciBDNEYfi2zF7

For questions or requests, the fastest way to communicate with our entire team is through your dedicated Slack channel. If you need assistance accessing Slack, please call our office. You can also reach us directly at 604-638-1188 or toll-free at 1-877-597-7888.

***Note**: Unless otherwise stated, data is compared month-over-month (MoM) or year-over-year (YoY). We are always happy to customize future reporting metrics or schedule a meeting to review these results.*

Thank you again for your business and continued partnership.
To Your Digital Marketing Success,
Shawn Moore

This section analyzes your **actual organic traffic data directly from Google**. While we review short-term health Month-over-Month (MoM), we also include overall Year-over-Year (YoY) comparisons here. This long-term view is essential for measuring true SEO progress and business growth, filtering out seasonal fluctuations.

Note: Unlike the previous section, which tracked a specific list of keywords, this data captures **every** search query that leads a user to your site, and reports at a **national level**.
