Hi Katarina, Sabina, and Andrew,

Here is your performance report for the previous month. Please let us know if you have any questions or suggestions. Happy to schedule a call to review the report if needed.

Data will indicate if it is comparing to the prior month (MoM) or same month in the previous year (YoY). If you want a specific comparison changed in future reports, or have more specific questions, let us know!

Sincerely,
Shawn Moore

Recommendations

1. Adding a call/form tracking tool like CallRail would let us track what source each call and form came from, and let you flag them as good or bad leads, which is valuable information to help provide marketing ROI information and help us further optimize. Please let us know if you would like to explore this option
2. Provide approval for us to swap your hosting platform to Kinsta. As discussed before, this would significantly help improve site security and speed - while also allowing us to safely and reliably perform plugin and platform updates. Please grant approval or reach out to discuss in more detail.
3. Solicit positive reviews from current and past clients (you can share this link to send people directly to your profile's review page: https://g.page/r/CS9EKM9CkkHJEAE/review). This will help improve your rankings on Google and Google Maps.

Keyword Rankings Report

This section tracks performance Month-over-Month (MoM). Because search engine algorithms and rankings are highly volatile, this short-term view allows us to identify and react to immediate landscape changes quickly.

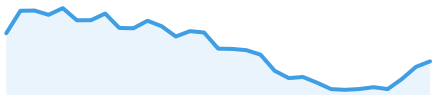

Note: These rankings reflect **local** data for your specific tracked keywords. Broader, national ranking data is available in the *Google Search Console* section below."

Position Tracking: Overview

munrocrawford.ca | Desktop, Vancouver, British Columbia, Canada (Google) | Organic | May 01 – 31, 2026

Visibility

32.75% −7.49%

This metric is based on CTR and shows a domain's progress in the Google top 100. The more visibility you have, the better. A 100-percent visibility would mean that the domain being tracked is ranking in the first position for all keywords in your campaign.

Estimated Traffic

1.96 −0.36

The estimated amount of traffic your domain is receiving while ranking for the keywords in your current campaign. It is calculated by multiplying the average CTR for each position your domain has by its keyword volume.

Average Position

29.02 ↑ 3.24

The average ranking of all keywords in your current campaign.

Google Search Console

This section analyzes your **actual organic traffic data directly from Google**. While we review short-term health Month-over-Month (MoM), we also include overall Year-over-Year (YoY) comparisons here. This long-term view is essential for measuring true SEO progress and business growth, filtering out seasonal fluctuations.

Note: Unlike the previous section, which tracked a specific list of keywords, this data captures **every** search query that leads a user to your site, and reports at a **national level**.
